IFER Appendix C

Guideline for final examination

1. Examination committee

The oral examination is run by IAAP's IFEC (international Further Education Committee) and will be represented by at least two IFEC member. Another IAAP member can also assist but has to be determined by IFEC.

The IAAP examination committee is responsible for

- evaluating the applicant's submitted documents (proof of obligatory further education hours and project dissertation),
- assessing whether the requirements of IAAP's IFER have been fulfilled or not,
- running the oral examination.

Following the evaluation process IFEC coordinates a suitable date for the oral exam to be held (personally or virtually). The candidate has to apply written for the final examination. **Duration and Content**

The oral examination should last approximately one (1) hour and covers at least four of the following topics:

- Assessment of the project thesis
- Description of the goetheanistic methodology giving an example
- Demonstration of the ability to recommend AMP for minor diseases
- Work with fundamental concepts and deal critically with possibilities and limits of AM
- Knowledge of manufacturing processes, safety and efficacy of AMP
- Quality standards and some regulatory knowledge

2. Documentation

Every examination will be documented. Minutes of the oral exam will be taken in writing, on the basis of which IFEC assigns the title „Pharmacist specialized in Anthroposophic Pharmacy“ (IAAP). The decision on assignment will be taken unanimously and based on verifiable criteria. The results will be communicated to the applicant and if necessary, further requirements will be elucidated.

In case of disagreement the decision must be referred to the complete board. A written explanation will be given to the candidate in the case of a rejection of the assignment. He/she is entitled to repeat the oral exam after an agreed period of time.

IAAP

International Association of
Anthroposophic Pharmacists

If the requirements have been fulfilled, the examination committee hands out the certificate *Pharmacist specialised in Anthroposophic Pharmacy* (IAAP).

The Fee of the certification can vary according to the country average income.
